CLAVE MANIA

Clave Mania is an original music project that combines the deep-rooted traditions of Latin America, a contemporary approach to jazz and an exploration of odd time signatures and compositional nuances.

Paul collaborated with ClaveMania to launch his Cuban CD "My Cuban Soul" which was recorded in CUBA.

Led by musical couple Jonathan Cohen and Elizabeth Obando, their collaborative compositions are a journey up and down the musical heritage of Latin America. Together, they skillfully visit a broad palette of genres including Cuban Timba and Mambo, Salsa, Argentinian Tangos, Afro-Peruvian Festejo, all cross-pollinated with traditional and experimental ingredients of Latin Jazz and the recontextualization of elements from music of other latitudes.
